

DLA & AA cuts!

I've been contacted by people who are concerned about reports that Disability Living Allowance and Attendance Allowance ~~may~~ will be scrapped, as part of the Government's plans to reform the social care system.

The DLA is a really important benefit for people with mental health problems, so it's not surprising that I have received calls & e-mails.

The DLA & AA cuts will affect a vast number of mental health services users and undermine the welfare of many. We need to stand shoulder to shoulder on this issue.

As a band of brothers I urge that we all sign the national petition in protest of detrimental changes. Please follow the link below where you will find (at the top left of the webpage) information.

Together we stand, divided we fall.
With best wishes and stay well from,
Benefits Bob the Welfare Weasel
