Dear <Name of your MP here>,

### **Rumours of DLA & AA cuts**

I've been contacted by people who are concerned about reports that Disability Living Allowance and Attendance Allowance will be scrapped, as part of the Government's plans to reform the social care system.

The DLA is a really important benefit for people with mental health issues (like myself) so it's not surprising that I have received calls and e-mails. The DLA & AA cuts will affect a vast number of mental health services users and undermine the welfare of many.

Please would you use your influence to petition the Prime Minister to recognise the vital support that Attendance Allowance (AA) and Disability Living Allowance (DLA) provide to disabled people and to ensure that these benefits are secured and are not removed as part of any future reform of the social care system in England. Thank you.

Yours sincerely,
